General Fund Appropriations

The Bill appropriates a total of \$1.3 million from the General Fund for projects previously funded from the Rebuild Iowa Infrastructure Fund (RIIF). These include:

- \$105,000 to the Department of Corrections (DOC) for maintenance-related costs to be assessed by the Department of Administrative Services (DAS).
- \$122,000 to the DOC for facility lease payments of the Davenport Residential Facility and the Training Facility in West Des Moines.
- \$220,000 to the Department of Cultural Affairs for the stabilization of the Iowa Battle Flag collection.
- \$101,000 to the Department of Education to replace indirect costs of the Vocational Rehabilitation Division as a result of space consolidation within the Jesse Parker Building.
- \$800,000 to the Department of Public Safety for costs associated with security in the Capitol and the Judicial Buildings.

**FY 2006 Changes**

The Bill appropriates \$571,000 from the RIIF to the DAS for improvements to Terrace Hill; decreases the RIIF appropriation to the Department of Natural Resources for lake dredging by \$571,000 (from \$1.0 million to \$429,000); and increases the RIIF appropriation for major improvements and repairs of State buildings from \$1.9 million to \$3.3 million.

FY 2007 – FY 2009

The Bill establishes standing limited appropriations from the RIIF to the Vertical Infrastructure Fund for FY 2007 through FY 2009, in the following amounts:

Code Changes

House File 875 extends the reversion date from June 30, 2005, to June 30, 2006, for funds appropriated in FY 2002 for State agency relocation expenses associated with remodeling projects on the Capitol Complex. This will allow the DAS to use approximately \$300,000 of unspent funds to continue to relocate State agencies from leased space to the Capitol Complex.

The Bill also extends the reversion date from June 30, 2005, to June 30, 2006, for funds appropriated in FY 2002 for the construction of the State Laboratory Facility located in Ankeny. This will allow the DAS to use

approximately \$3.8 million of unspent funds to complete the project in FY 2006.

HOUSE PASSES GROW IOWA VALUES FUND BILL – HF 868

Grow Iowa Values Fund

The House passed HF 868 (Grow Iowa Values Fund Bill) on April 27. The Bill provides for the following:

- Creates the Grow Iowa Values Fund and makes changes to the composition of the Economic Development Board.
- Requires the Department of Economic Development (DED) to coordinate all State business-related regulatory assistance and to establish an Iowa Business Resource Center Program.
- Allows for the establishment of economic development regions and economic development region revolving funds.
- Allows for a 20.0% tax credit for making a contribution to an economic development region revolving fund, caps the tax credit at \$2.0 million per fiscal year plus carry-forward, allows unawarded tax credits to be carried forward and used in subsequent fiscal years, and allows a non-profit entity to receive a General Fund appropriation in lieu of the tax credit for its contribution.

- Allows economic development regions to apply to the DED for financial assistance, and caps the aggregate financial assistance at \$1.0 million per fiscal year.
- Establishes and defines economic enterprise areas, and allows up to 10 areas to receive up to \$75,000 per fiscal year from the Grow Iowa Values Fund.
- Requires the DED to create a business accelerator program with funds appropriated from the Grow Iowa Values Fund.

Job Creation Program

The Bill creates the High Quality Job Creation Program in the DED to take the place of the New Jobs and Income and the New Capital Investment Programs, and allows for the award of tax credits under the Program on a sliding scale based on the size of the capital investment, number of jobs created, and the wages and benefits paid for those jobs. The more jobs a business creates, and the greater the investment and compensation, the greater the tax incentive. The tax credit awarded is to be amortized equally over a five-year period, and may be carried forward and used for up to seven years or until depleted, whichever occurs first. The Bill also:

- Caps investment tax credits at \$3.6 million annually for investments below \$1.0 million under the High Quality Job Creation Program. There is no cap for investments greater than \$1.0 million.
- Specifies wage thresholds that must be met in order to receive tax incentives and allows the DED to grant waivers.

Wage-Benefits Program

The Bill creates the Wage-Benefits Tax Credit Program, and allows a non-retail, non-service business to apply to the Department of Revenue to claim a minimum of 5.0% to a maximum of 10.0 % tax credit of the annual wages and benefits paid for a qualified new job created by the location or expansion of the business in the State. The percentage of the award is based on the wages and benefits paid for the new job. The Bill caps the tax credit at \$10.0 million per year, to be awarded on a first-come, first-served basis after the business maintains the new job for a 12-month period. The business is eligible to receive the same tax credit for four additional years without additional investment, providing it maintains the new jobs created for each of those years. Businesses that receive a tax credit in excess of tax liability are allowed to receive a tax refund for the amount in excess of the liability or are allowed to carry the credits forward to be used in a subsequent year.

Other Provisions

The Bill also includes the following provisions:

- Requires the Department of Cultural Affairs to establish a Cultural and Entertainment District Certification Program.
- Amends Section 404A.1(1), Code of Iowa, relating to historic rehabilitation tax credits by allowing tax credits for projects in certified cultural and entertainment districts, and allows an additional \$4.0 million in tax credits each fiscal year for historic rehabilitation and cultural and entertainment tax credits.
- Requires the Economic Development Board to establish a Technology Commercialization Committee, and specifies the composition and duties of the Committee.
- Requires the establishment of a Technology Commercialization Specialist in the DED, and specifies the duties of the position.
- Requires the Governor to appoint a Chief Technology Officer to a four-year term to facilitate and oversee commercialization of research efforts.
- Allows the DED to allocate up to 10.0% of the assets in the Loan and Credit Guarantee Fund for certain microenterprises.
- Allows up to \$1.0 million in research and development tax credits for innovative renewable energy generation.

- Amends the definition of “qualified community foundation” under the Endow Iowa Program; extends the sunset date for tax credits under the Program from December 31, 2005, to December 31, 2008; allocates 10.0% of the aggregate tax credits each year for gifts of \$30,000 or under; requires 3.0% of the county endowment fund to be used by the lead philanthropic entity for administration; and specifies effective and retroactive dates.
- Requires the DED to create a cost-share program for financial incentives for 30 new or converted E-85 retail outlets and four new or converted on-site or off-site terminal facilities. Caps the expenditure for this program at \$325,000 per year from FY 2006 through FY 2008.

The fiscal impact of research and development tax credits that may be awarded under the High Quality Job Creation Program cannot be determined; therefore, it is not included in the fiscal impact of this Bill. The lowAccess Revolving Fund has historically received a transfer of \$1.0 million from the fees collected by the Department of Transportation for transactions involving the furnishing of certified abstracts of a vehicle operating record. The FY 2006 appropriation will be used to support the costs of the Board, including meeting costs and 3.0 FTE positions. The DAS anticipates this will increase to \$327,000 and 4.0 FTE positions for FY 2007.

FINAL ACTION ON WINE REVENUE BILL – SF 395**Wine Bill**

The General Assembly passed SF 395 (Wine Revenue Bill) on April 26. The Bill transfers 5.0% of the funds collected from the wine gallonage tax on wine imported into Iowa for sale at wholesale into the Grape and Wine Development Fund. The Fund will be administered by the Department of Agriculture and Land Stewardship for expenditures related to the growth of the Iowa grape and wine industry. Background

During the 2001 Legislative Session, the General Assembly passed legislation that created the Grape and Wine Development Fund to receive funds from the wine gallonage tax with maximum funding of \$75,000 per year. As the number of Iowa commercial grape growers and wine makers increases, additional funding will be needed to provide technical expertise to growers and wine manufacturers.

Fiscal Impact

HOUSE PASSES PROPERTY TAX REFORM BILL – HF 847

Property Tax Reform Bill

The House passed HF 847 (Property Tax Reform Bill) on April 21. The Bill provides for the following:

- Creates a Statewide Property Assessment Appeal Board to hear appeals of local review boards for the assessment year beginning January 1, 2007. The appellant still may appeal directly to District Court, rather than going to the Statewide Board. An appellant, who first appeals to the Statewide Board, may then appeal the Statewide Board's decision to District Court.
- Requires local assessors to use the forms and apply the guidelines contained in the Real Property Appraisal Manual prepared by the Department of Revenue. Willful disregard of the assessment rules, forms, and guidelines may result in the Department withholding the county's or the city's homestead property tax credit reimbursements. A provision is included to request permission from the Department of Revenue to use alternative guidelines and manuals and to appeal the withholding of funds.
- Combines the taxable value growth limitations for residential, agricultural, commercial, and industrial property by limiting the increase to the lowest percentage for all of those classes or 4.0%, whichever is lower. This is retroactive to the January 1, 2005, assessment year.

Fiscal Impact

The first and last changes listed above are expected to have a significant fiscal impact.

- The Property Assessment Appeal Board will cost an estimated \$305,000 in salaries and benefits for the last six months of FY 2007 and an estimated \$611,000 for the entire year in FY 2008. There will be additional costs for office space, equipment, supplies, and travel. Expansion of staff over time will, likewise, increase operating costs. The Courts will likely experience some cost

savings due to reduced appeals of local Board of Review assessment appeal rulings, but these savings are not likely to be significant.

- Creating rollbacks based on combining residential, agricultural, commercial, and industrial classes taxable value growth will reduce taxable valuations.
- If property tax rates are not increased, there will be a resulting decrease in revenues from property taxes. To the extent that taxing authorities can raise levy rates within established limits, they would not experience revenue reductions.
- Taxable valuation change projections were made by repeating the pattern of the last 10 years for the next 10 years. Since agricultural and residential property valuations are linked and agricultural valuations have the smallest growth, the projected changes will be due to less commercial and industrial taxable valuation than would occur under current law. This would decrease tax revenues by approximately \$51.8 million in the first year, assuming a \$35.00 consolidated levy. The decrease would continue, reaching a \$267.4 million reduction after 10 years with an 87.4% commercial and industrial rollback.
- The Uniform Levy would decrease and be offset by increased State Foundation Aid for school districts, at a cost to the General Fund of \$8.0 million in the first year, increasing annually to \$41.2 million after 10 years.
- Over the 10-year example, the proportion of property taxes paid by residential taxpayers would increase by 2.5%, agricultural taxpayers' proportion of taxes would increase by 0.7%, and commercial and industrial taxpayers' combined proportion would decrease by 3.3%.

FINAL ACTION ON LEARNING TECHNOLOGY BILL – HF 739

Learning Technology Bill

The General Assembly passed HF 739 (Learning Technology Bill) on April 27. The Bill expands upon the Iowa Learning Technology Initiative established in Section 280A.1, Code of Iowa, and includes the following provisions:

- The Board of Regents must establish a research triangle and clearinghouse to provide information on the results of elementary and secondary education technology initiatives throughout the State.
- The Iowa Learning Technology Commission is established and required to develop and administer pilot programs through local and public-private partnerships, with administrative support provided by the Department of Education. The pilot programs may include, but are not limited to, the use of one-to-one student learning technology and the use of technology to develop individual education plans for students.
- The Commission is authorized to award grants to school districts on a competitive basis. The grants must be matched locally with public, private, federal, State, or local dollars.
- The Bill does not provide an appropriation. The portions of the Bill regarding the Iowa Learning Technology Initiative (excluding the research triangle and

clearinghouse provisions) are contingent upon a FY 2006 appropriation sufficient to implement the provisions.

Fiscal Impact The estimated fiscal impact of HF 739 to the General Fund is \$315,000 in FY 2006 and \$299,000 in FY 2007 for expenditures related to the research triangle and clearinghouse.

FINAL ACTION ON MENTAL HEALTH INSURANCE PARITY – HF 420

Mental Health Ins. Parity The General Assembly passed HF 420 (Mental Health Insurance Parity Bill) on April 26. The Bill creates Section 514C.22, Code of Iowa, and requires that a group policy, contract, or plan providing for third-party payment or prepayment of health, medical, and surgical expenses must provide coverage benefits for biologically-based mental illness under the policy, contract, or plan, delivered, issued for delivery, continued, or renewed in Iowa on or after January 1, 2006.

Conditions Covered Biologically-based mental illness means a psychiatric illness including schizophrenia, bipolar disorders, obsessive-compulsive disorders, pervasive developmental disorders, and autistic disorders.

Fiscal Impact The fiscal impact of HF 420 to the General Fund is an estimated \$106,000 in FY 2006 and \$122,000 in FY 2007, due to the increase in benefits for central payroll staff. The non-General Fund share of costs, excluding the employee share, will increase by \$135,000 for FY 2006 and \$156,000 for FY 2007, due to the increase in benefits for central payroll staff. The employee share of the increase will be \$6,000 for FY 2006 and \$6,000 for FY 2007, due to the increase in benefits for central payroll staff.

The Bill will also increase the cost for the Board of Regents, including employee costs, by an estimated \$2.2 million for FY 2006 and \$2.5 million for FY 2007. The Regents current Managed Care Organization (MCO) policies provide for a lower payment percentage and fewer inpatient and outpatient days than the central payroll MCO policies.

FINAL ACTION ON ANTI-SPAM BILL – HF 610

Anti-Spam Bill The General Assembly passed HF 610 (Anti-Spam Bill) on April 27. The Bill relates to the transmission of unsolicited bulk electronic mail and to the solicitation of the purchase of a prescription drug and the sale of adulterated or misbranded drugs through the use of electronic mail or the Internet.

Penalties House File 610 imposes penalties for a variety of actions, including simple misdemeanors, aggravated misdemeanors, Class D felonies, and a Class B

felony. The Bill also permits civil remedies and repeals Chapter 714E, Code of Iowa.

Correctional Impact

The creation of a new offense carries the potential for a correctional impact on court caseloads, prisons, county jails, and Community-Based Corrections (CBC) resources. Depending on the location of offenders (within Iowa or not) and law enforcement and prosecution activities, there may be a significant increase in the number of aggravated misdemeanor and Class D felony convictions. The correctional impact cannot be determined, however, due to a lack of information.

Fiscal Impact

The fiscal impact of HF 610 cannot be determined due to insufficient information.

FINAL ACTION ON MODEL STATE SPYWARE BILL – HF 614

Model Spyware

The General Assembly passed HF 614 (Model State Spyware Bill) on April 27. The Bill creates Chapter 714F, Code of Iowa, which prohibits certain actions related to the transmission and use of software, such as the transmission of software to modify, through deceptive means, settings that control web site access. Violators are subject to criminal penalties for certain actions, including an aggravated misdemeanor and a Class D felony.

Correctional Impact

House File 614 creates new crimes; therefore, there is no readily available data to project the specific correctional or fiscal impact. The creation of a new offense carries the potential for a correctional impact on court caseloads, prisons, county jails, and Community-Based Corrections (CBC) resources. Depending on the location of offenders (within Iowa or not) and law enforcement and prosecution activities, there may be a significant increase in the number of aggravated misdemeanor and Class D felony convictions. The correctional impact cannot be determined, however, due to a lack of information.
